Industrial visit should be done which is important to impart practical knowledge.

Nice going on

Kindly provide the various fields of internships...

In general espically in aerodepartment they are not ready to give permission for paid intern for final years,,once completion of our degree then only they provide stipend durning training period.

While pursuing intern we come to know the practical knowledge and taste the hands on training experience.

But in this case collage should permit only internship with stipend ,,,even free intern they won't permit,,

Without knowledge where we get the job?
